KAZAKHSTAN  
ENERGY  
WEEK

**XII**  
KAZENERGY  
EURASIAN  
FORUM  
KAZAKHSTAN

The oil, gas and energy sector is one of the national economy segments, the driving force of the country. Over the years of its existence, the KAZENERGY Association has strengthened its role as the leading industry association.

It mediates the government-business relationships and contributes to investment attraction and introduction of new technologies. The KAZENERGY Eurasian Forum is also intensively developing together with the Association.

Currently, KAZENERGY is facing particularly important tasks to fulfill. The extensive development of energy resources in Kazakhstan should be accompanied by the introduction of innovations, new energy saving standards, as well as ensuring a multiplying effect on the downstream sector of the economy.

The common mission of all member companies of the KAZENERGY Association is to consolidate joint efforts to build a highly efficient energy industry that will meet the highest international standards.

I wish you dynamic development and new achievements!

**NURSULTAN NAZARBAYEV**

The First President of the Republic of Kazakhstan, Leader of the Nation

The KAZENERGY Forum is the main international event of the energy sector in the region. The Forum traditionally attracts the interest of governments worldwide, international energy organizations, diplomatic missions, domestic and foreign energy companies, research institutes and consulting agencies. The Forum's success and credibility are largely due to the participation of powerful political figures and world-renowned experts.

Major international organizations, such as IEA, International Energy Charter, IEF, GECCF, UNECE, IRENA, as well as transnational oil and gas and energy companies have been the Forum's partners for many years.

## PREVIOUS YEARS SPEAKERS

▶ [KAZENERGYFORUM.COM](https://www.kazenergyforum.com)

The new KAZAKHSTAN ENERGY WEEK project implemented by the KAZENERGY Association with the support of the Government of Kazakhstan will provide the world energy community with a unique opportunity to expand the scope of discussion of topical issues in the energy sector.

The essence of transformations necessary for the global and Kazakhstan's energy industry will be captured within the framework of the XII KAZENERGY Eurasian Forum that will become the main event of the KAZAKHSTAN ENERGY WEEK, as well as during other important events.

Over the years of its existence, the KAZENERGY Forum has earned high prestige among the industry experts as a central discussion platform for finding new effective solutions in the field of energy. The new format of the project will enable its participants not only to discuss the current trends of the global energy market, but also to analyze the previous experience and define priorities for its further development.

**KANAT BOZUMBAYEV**  
Minister of Energy of the Republic of Kazakhstan

# PRESENTATION OF THE NATIONAL ENERGY REPORT 2019

The Report is aimed at presenting a holistic vision of the current situation in the fuel and energy sector of Kazakhstan today.

The Report will be focused on carrying out an independent, comprehensive and analytical analysis of the following areas: petroleum industry, gas industry, electric power industry and renewable energy sources (RES), reduction of greenhouse gas emissions (GHG) and energy saving.

The presentation of the updated version of NER will be one of the key events of KEW-2019 and the XII KAZENERGY Eurasian Forum.

**The previous versions of the KAZENERGY National Energy Report are posted on the website: [www.kazenergy.com](http://www.kazenergy.com)**

# INTERACTIVE EXHIBITION

## KAZENERGY EXPO

We offer a **new interactive format** (virtual reality, augmented reality, artificial intelligence, blockchain) that will allow our guests to receive more information about the event, and corporate participants will be able to present their products with maximum effect.

THE PLATFORM TO DEMONSTRATE THE  
RESULTS OF APPLICATION OF INNOVATIVE  
TECHNOLOGY IN GLOBAL ENERGY

# XI KAZENERGY YOUTH FORUM

2019 in the Republic of Kazakhstan declared the Year of the Youth.

It is difficult for the younger generation to adapt to the outside world in the time of fast-developing progress and innovations....

What steps should we take to ensure personal development of the younger generation?  
How can we help ourselves not get lost in the world of new technologies?

The most popular life scenarios for the youth are to study, to discover the world and one's own country, to improve knowledge, including in practice. Not to be afraid. To search for fellow thinkers. To be an innovator in everything, to try and not to be afraid of mistakes.

📅 23 | 29 September 2019

### THE FORUM'S GOAL

- ✔ Creating a platform for youth to discuss the effective ways of finding answers to the challenges of time, to share experience, and communicate with stakeholders.
- ✔ Who do we expect to see at the Forum?  
Motivated young people, future leaders who can change the future of our country.
- ✔ It is also planned to conduct discussion panels and other events with participation of masters and industry experts from Kazakhstan and other countries.
- ✔ The events within the framework of the Youth Forum will be conducted at different thematic platforms.

## IV WOMEN ENERGY CLUB FORUM

- ✓ The KAZENERGY Women Energy Club Forum is a dialogue platform for female workers of the oil, gas and energy sector to share experience and facilitate the development of talents and skills necessary for the professional and personal growth.
- ✓ Traditionally, the Forum is attended by the representatives of the National Commission for Women, Family and Demographic Policy under the President of the Republic of Kazakhstan, the Council of Business Women of Atameken NCE RK, state authorities, major international organizations, top managers of national and international oil, gas energy companies, industry experts, etc.
- ✓ In 2019, the key topic of the IV KAZENERGY Women Energy Club Forum will be “Modern Image of Women’s Leadership in Energy”.
